

MICHIGAN DEPARTMENT OF NATURAL RESOURCES

INTEROFFICE COMMUNICATION

February 3, 2015

TO: Grant-in-Aid and State Harbors

FROM: Jacklin Blodgett, Program Services Section Chief
Parks and Recreation Division (PRD)

SUBJECT: 2015 Rates for Michigan State Waterways-Sponsored Facilities

A handwritten signature in blue ink, reading "Jacklin Blodgett", is written over the "FROM:" line of the communication.

Attached are the 2015 rates for Michigan State Waterways-sponsored facilities. There were no changes from the 2014 rates.

If you are a community which has a Waterways sponsored facility, per your agreement with the Department of Natural Resources (the Department), that you are required to provide your rate schedule. The rate schedules in this attachment provide the parameters for which the Department considers acceptable rates. Please communicate back to the Department on which column your Transient (A-F) and Seasonal, if any, (1-10) rates are for the 2015 season. **Please send those rates to Mike Kraft, Department Financial and Personnel Analyst at (kraftm@michigan.gov or 517-284-6108).**

We recognize that there are some alternative rates to these schedules which are in place. Please communicate back to us regarding those changes.

A couple of other notes:

Transient Rates:

1. You have the ability to set your rates based on what you feel works best for your community/facility. Once you have identified the rate, please forward this information back to Mike Kraft in order to track which column your facility is operating from.
2. If you are on the Central Reservation System (CRS), it is imperative that you get your rates into Christa Sturtevant, CRS liaison (sturtevantc@michigan.gov or 231 861 2703) to ensure that inventory is properly covered within the reservation system. This is in addition to notifying the Department.
3. Transient rates are based on the length of the slip, not the length of the boat. Last year, there were issues of timeliness in getting the correct inventory back to Camis, the vendor for the reservation system. Camis incorporated a bracket of rate ranges that covered all the marinas, regardless of what size of slips are at the facility. There was some confusion because it appeared there were rates for slips that were not available at your select facility. The brackets have been removed and rates schedules will reflect the length of slips for each facility.

2015 Rates for Michigan State Waterways sponsored facilities

Page 2

February 3, 2015

4. You can adjust your transient rates within the season if you feel inclined to do so. If you are a member of the CRS through the Department, this information would be required as part of your beginning inventory. If you are not on CRS, you can make the adjustment according to your needs. Again, please notify Mike when you plan on having a change so we can track these efforts on a statewide basis.
5. If you have further questions regarding how rates work in the Central Reservation System, please contact Jason Fleming, Resource Management Section Chief for PRD (flemingi@michigan.gov or 517-284-6098).

Seasonal Rates:

1. All grant agreements require Department approval for seasonal slips. Department has approved the number of seasonal slips, unless there is a conditional term placed on the approval, the community/state facility can use that number for seasonal slips indefinitely unless otherwise noted by the Department. Please indicate with Mike the number of seasonal slips at your facility.
2. As with transient rates, you are allowed to charge the appropriate rate that best fits your amenities/needs of your facility, as long as you are approved to have seasonal slips.
3. You are required to send us your rate schedule for seasonal slips. Unless there are extenuating circumstances to go outside of these attached rates, we consider any rate move within this amount to be acceptable. Consideration should be given for private marina impacts so that municipal and state facilities are not in adverse competition with these locations for seasonal dockage.
